PROFESSIONAL SUMMARY

BCA fresher with hands-on Web development experience using **React.js, JavaScript, PHP, Python, and MySQL**. Delivered 4 live deployed projects including an e-commerce platform, an NGO market-linkage React app, and an appointment booking system. Proficient in building responsive UIs, integrating databases, and deploying on Netlify and Render. Eager to contribute in an agile team environment and grow as a full-stack developer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js(basics)

Backend: PHP (basics), Python, Java

Database: SQL.

Tools & Platforms: Git, GitHub, VS Code.

EDUCATION

B.C.A – Computer Applications | SRM Institute of Science & Technology, Chennai CGPA: 9.23 / 10 | 2023 – 2026

Class XII – Tamil Nadu State Board Score: 65.67% | 2023

Class X – Tamil Nadu State Board Score: 100% | 2021

INTERNSHIP EXPERIENCE

Web Development Intern — Vaishnav Technologies, Coimbatore (Remote) May 2025 – Jul 2025

- Built **6+ responsive web pages** for real-world client projects using HTML5 and CSS3, ensuring cross-browser compatibility.
- Followed agile development workflow and industry coding standards, collaborating effectively with remote team members.
- Modularised CSS stylesheets and frontend components, improving code reusability and maintainability across deliverables.

PROJECTS

AgroLink — NGO Market Linkage Platform May 2026

React.js, JavaScript, CSS, Netlify

- Built a responsive **React.js** web application connecting **12,000+ farmers and fishers** to direct markets, eliminating intermediaries and enabling fair pricing.
- Developed reusable component-based architecture ensuring consistent, mobile-friendly UI across all screen sizes.
- Deployed live on **Netlify** with continuous deployment from GitHub, demonstrating a complete CI/CD workflow.

Shopeasy — E-Commerce Platform

Mar 2026

HTML, CSS, JavaScript, PHP, MySQL, Render

- Developed full-stack e-commerce platform with user authentication, product browsing, cart, and order management features.
- Designed mobile-first responsive UI and integrated **MySQL** for product and user data with full REST API backend.
- Handled end-to-end development and deployed the live application independently on Render.

Medibook — Online Appointment Booking System

Feb 2026

HTML, CSS, JavaScript, PHP, MySQL

- Built real-time appointment booking system with live availability management and an intuitive user experience.
- Managed complete backend and MySQL database integration; deployed the application publicly for live user access.
